MORE DAYS TO EXPERIENCE IT BETTER

When you have more time, the best thing is not to rush more, but to savour every moment.

Longer stays at Albir Experience allow you to discover the destination from a different perspective. No rush, no feeling that you have to see everything in just one day, and with the luxury of being able to combine the sea, rest, movement and special plans depending on what you feel like at any given moment.

Here, it is not just about doing more things, but about experiencing them better. About leaving room to improvise, repeat what you loved, truly rest and feel that the trip has the perfect rhythm.

Make it Memorable

Feel the Sea

Our Recommendations

Feel the Sea

There are days that simply call for water, light and the horizon.

During a **longer stay**, the sea stops being just a plan and becomes part of everyday life.

You can start the morning with a **walk by the water**, treat yourself to a few hours at the beach without looking at the clock, **discover a hidden cove** or **get on a paddleboard** to experience the coast from another perspective. Here the sea is felt in many ways:

- **walking along El Albir beach**
- reaching **Cala de la Mina** by kayak or paddleboard
- enjoying the beautiful coves of **Altea**, such as Mascarat
- watching the **sunset from the sea on a catamaran**
- or simply sitting in front of the Mediterranean and letting time pass

Because when you have more days, you also have more space to pause, breathe and look at the sea without rushing.

Move

Moving here does not mean rushing. It means discovering.

A longer stay also invites you to go out, explore and let yourself be surprised by everything around you. From gentle walking routes to charming little getaways, El Albir is the perfect starting point to combine nature, beautiful villages and active plans without needing to travel far. Here you can:

- walk the **Albir Lighthouse Route**
- cycle to **Altea** and continue along the promenade to **Playa de la Roda**
- wander through the streets of Altea's old town
- discover **Guadalest** and **Les Fonts d'Algar**
- go for a walk, take a stroll or simply change scenery for a few hours

Because a longer stay is also enjoyed like this: one more active day, another slower one, and the feeling that everything fits together effortlessly.

Make it Memorable

Some plans turn a holiday into a memory you want to return to.

When you stay for more days, those special moments appear that make the experience feel even more complete. There is no need to fill the agenda: it is enough to choose those small moments well, the ones that still shine when you remember them.

It could be:

- a romantic dinner in **Altea's old town**
- a **jet ski** experience in Benidorm
- a sunset **catamaran trip**
- a relaxed barbecue at the apartment
- a special meal by the sea
- or a long breakfast on the terrace, with no immediate plans and the whole day ahead

Because memorable does not always mean big. Very often, it is simply what feels beautiful, light and truly yours.

Live it Slow

Sometimes, the best plan is having no plan at all.

Longer stays are also made for truly slowing down.

For enjoying the apartment, the pool, breakfast with no set time, a nap after the beach or an afternoon that needs nothing more than shade, silence and rest.

This kind of trip also leaves room to:

- read on the terrace or in the garden
- spend an entire morning by the pool
- return to the place you liked the most
- improvise a relaxed meal at the apartment
- rest without guilt
- and feel that, for once, you do not need to make the most of every minute for the trip to be worthwhile

Because when the rhythm is right, even not doing much becomes one of the best parts of the trip.

Closing

Longer stays have something special: they allow you to stop visiting the destination and start living it.

Sea, calm, charming getaways, plans you truly feel like doing and enough time to repeat, improvise or simply rest. This is how El Albir is discovered when there is no rush: in a lighter, more beautiful and much more memorable way.

Our Tips

- 1 **Alternate more active days with quieter ones** so you can enjoy both the destination and your rest much more.
- 2 **Do not try to see everything all at once:** the beauty of staying longer is being able to choose each day according to what you feel like doing.
- 3 **Book the most popular activities in advance** if you are travelling in high season.
- 4 **Remember to ask our Albir Experience team** about booking activities. We will be delighted to help you organise everything, so all you have to do is enjoy.
